Annapurna™ Resource
DOMAIN AND RESOURCE MODELING MADE EASY

Resource Geologists

Corporate Mineral Resources Teams

Consultants and Due Diligence companies

Annapurna™ Resource provides accessible, automated, reproducible and high-quality **human-assisted** resource models

FASTEST IN THE MARKET

NO NEED TO BE A SOFTWARE EXPERT

AUTOMATES YOUR CURRENT PROCESS

WHY ANNAPURNA™ RESOURCE?

AUTOMATE YOUR CURRENT ESTIMATION WORKFLOW: NO REWORK

REDUCE MODEL CREATION TIME BY 99%: SAVE TIME AND MONEY. USE YOUR TIME IN IMPORTANT ANALYSIS, NOT REPETITIVE TASKS

ESTIMATE/SIMULATE VERY LARGE AND COMPLEX MODELS WITH MILLIONS OF BLOCKS AND SAMPLES: NO LIMITS

NO SURPRISES: REDUCE THE UNCERTAINTY OF YOUR OREBODY MODEL WITH ROBUST RESOURCE MODELS AND ADVANCED TECHNIQUES

REDUCE COSTLY MISTAKES AND LOSSES, IN OPERATIONS AND PLANNING, KEEPING YOUR RESOURCE MODEL CONTINUOUSLY UPDATED WITHOUT EFFORT

USE CASES

- **Generate an automated resource model** as a reference starting point in seconds not hours, days or weeks

- **Reproduce your current practices** into an automated workflow including: steps, parameters, analyses, techniques

- Generate a **robust** assisted geological and grade model of the ore deposit

- Keep **resource models updated rapidly** with every new update of information and no effort

- Understand **the differences between resource models**, considering different parameters and information

- **Understand, locate and manage** the uncertainty and risk associated with the resource model

- **Share results in 3D** with the modeling team for feedback and collaboration
